Europe's Changing Woods and Forests. Previous article. This is rich, timely, and sobering historical fare written in a measured, non-sensationalist style by a master of his craft. Within seven years following the Victorian goldrush, "there was not enough timber left to build a house in the country." But, why does deforestation continue even though the world apparently has reached a consensus about its threat to human existence in many direct and indirect ways? Scars and Solutions, – As Williams says, it is made up of the '...uncoordinated and unrecorded individual actions of tens of millions of small -scale decision makers and land managers' p. The back was against the wall everywhere, and this sense of collective vulnerability is a constant theme. Navigation. Now available as an abridgment, this edition retains the breadth of the original while rendering its arguments accessible to a general readership.
