The implication is that instead of thinking that The Golden Thread: The Story of Writing came to Greece in two phases – with two different script cultures – the Minoan Greek Linear A and Mycenaean Greek Linear B on the one hand, and the alphabet on the other with a mysterious barren gap in time between – we are beginning to understand that the history of writing in Greece may have been a continuous one that shifted to the more popular and accessible alphabetical system from a more restricted and complex syllabic one. Posted 17 October - Does look interesting, but not available here till next February, and there's no ebook preorder info Want to Read saving... HannibalLectoristhequintessentialserialkiller. Sign in to Purchase Instantly. The most significant was the Aramaic, from which came in turn the Hebrew, Arabic and Indian script families. Though the letters do not adhere precisely to fixed measurements in terms of length and radius, it seems the makers of this inscription were thinking proportionally about letterforms, and the logic here is linear. Thediscoverersofthesesimple,yetundeciphered,inscriptionswereJohna loved it! Indeed the material culture of this world, the shape of its objects, the nature of the institutions that have grown up alongside them and in which they find currency, is the sum of the ways that we human beings have developed, thus far, to engage in the process.
